SETTLEMENT REACHED IN MICHIGAN PHONE STRIKE

KEY STATE IN NEGOTIATIONS MAKES PEACE

Detroit, April 11—(AP)—Michigan's strike of 15,000 telephone workers was settled today, apparently opening the way to peace nationally in the telephone industry.

The Michigan Bell Telephone Company and the CIO Communications Workers of America jointly announced the settlement.

Full details were not revealed immediately, but the basis for agreement was reported by the union as a 12.7-cent hourly wage increase.

Any settlement in Michigan, key state in negotiations, was expected to form the pattern for agreements generally.

A union spokesman said the company's last general increase offer of \$4 to \$7 a week would stand, with adjustments.

Upwards of 200,000 telephone workers across the nation have been idled in the strike. The majority of those are non-strikers who stepped off the job in respect of strike picket lines. Bell System employees have been on strike since Monday in Michigan, New Jersey, northern California, and Ohio in wage disputes. At the same time the union's members have been on strike against Western Electric Company in 48 states.

The combination of the two walkouts resulted in widespread idleness.

Michigan's striking switchboard operators and maintenance men are expected to return to work "no later than tomorrow," a union spokesman said. It was not clear at the moment whether this meant they would cross Western Electric picket lines around telephone exchanges.

In Ohio where some 12,000 Bell employees are on strike a union spokesman said the Michigan settlement would be "a basis for an agreement in Ohio."

As intensified picketing led to scattered instances of violence, the company obtained temporary injunctions in some states to restrain picket lines. The union ordered all pickets removed in at least one state—but announced plans to extend their lines in others today.

Southern Bell secured orders forbidding picketing throughout Florida, North Carolina, Alabama, Mississippi and portions of Tennessee and Louisiana.

In Georgia, local CWA president W. H. Camp at Atlanta last night ordered removal of all picket lines in the state.

In Indiana, normal work forces reported in South Bend, Marion (Turn to Page Twelve)

SCOUTS TO AID VOTE
Warren county Boy Scouts will soon be placing attractive posters, urging all voters, of whatever affiliation, to visit the polls. "Hey! Register and Vote!" reads the poster, showing an Explorer, a Scout and a Cub ringing old-fashioned dinner bells and shouting the message. The project is in cooperation with Freedom, Inc.

ARRANGEMENTS COMPLETE FOR ANNUAL EASTER EGG HUNT SATURDAY AFTERNOON
Crescent Park will be the egg capital of Warren county for a brief period, Saturday, before the onslaught of hundreds of children who will converge on the park for the annual Easter egg hunt sponsored by Chief Cornplanter Post 135, American Legion.

With the starting gun due to open the hunt at 2 p. m. sharp, Legionnaires will have hid over 2,400 eggs in the park before the children begin their search, and some 600 of these eggs will carry a notation entitling the finder to an extra prize.

Members of the Post will be assisted by Police Chief Mike Egan and officers of the Borough police department in handling the crowds at Crescent Park, and Lewis' sound truck will aid in making announcements and directing the assembly of the children into the four age sections: five to six, seven to eight, nine to ten, and ten to eleven.

Legion members have arranged for transportation of the youngsters at the Hoffman Children's Home on Conewago avenue, to the egg hunt in order that they may join in the fun.

Possibility of a Government-Union Dictated Wage Deal In Steel Dispute Stirs Officials

Washington, April 11—(AP)—Floundering negotiation for a settlement of the steel labor dispute led to reports today that the administration may go ahead and make its own wage deal with CIO President Philip Murray.

Any such move is certain to provoke another quick court attack from the steel industry.

At the moment the industry is under government operation, there is no steel strike, the steel companies are managing their own plants and finances under nominal federal rule, and the vital defense metal is flowing.

How long this "status quo" will remain is anyone's guess. The steel industry already has lost two attempts for fast court review of the legality of President Truman's seizure orders and attorneys are rushing new moves.

But for the moment it seemed the government was firmly in control. It was plain, however, that the Truman administration recognized it had a bear by the tail and wanted to let loose as soon as possible. This could only be accomplished by a settlement of the basic differences between the industry and Murray, head of the Steelworkers' Union.

Otherwise, without government intervention, Murray's industry-wide strike threat was sure to materialize.

Wage talks between the industry and Murray under supervision of Acting Defense Mobilizer John R. Steelman appeared to be getting nowhere.

A great deal depended upon how each side felt about the seizure's legality. The industry, feeling the government's taking over of its plants and mills was illegal, could wait it out until a court test. The government, depending upon how solid it felt legally, could wait or deal with Murray.

Murray stuck steadfastly to Wage Stabilization Board-suggested settlement terms of 17 1/2 cents an hour increase in pay, plus the union shop and other concessions. (Turn to Page Twelve)

History's Greatest Missouri Flood Is Reported Receding
Pierre, S. D., April 11—(AP)—History's greatest Missouri river flood swept toward downstream communities today after dropping here slightly overnight from its record crest of just over 26 feet.

Army engineers gauges showed a 24.75 foot reading at midnight (CST). But with upriver tributaries still pouring in huge quantities of water, they refused to say the crest has passed. Flood stage here is 16 feet.

The big muddy, normally 1,000 feet wide, spread over five miles to engulf all but three blocks of nearby Fort Pierre and 30 blocks of this South Dakota capital.

The Red Cross declared 12 Nebraska and Iowa counties disaster areas as the unrelenting torrent swirled southward. In South Dakota, 13 counties fought the raging river and its tributaries. Floods also were reported in (Turn to Page Twelve)

Anniversaries of Two Important Events In Truman Administration Are Recalled
Washington, April 11—(AP)—It's anniversary time around the White House.

One year ago today—actually, the announcement came in the middle of the night—Harry Truman fired Gen. Douglas MacArthur from all his far eastern commands.

And seven years ago tomorrow, the man from Missouri—dazed and frightened—suddenly found himself in a position to fire five-star generals. It was on April 12, 1945, that Franklin D. Roosevelt died and Harry Truman became president.

There wasn't any anniversary celebration at the White House last year.

NEWARK AIRPORT WILL BE REOPENED MONDAY
Newark, N. J., April 11—(AP)—Newark Airport, shut down two months ago after three plane crashes in nearby Elizabeth, is expected to be reopened Monday on a limited basis for military use.

The Port of New York Authority, which operates the sprawling airport, approved its reopening yesterday for limited use by the U. S. Air Force.

Civilian cargo planes, under contract to the Air Force, also will use the airport, which once was the most important in the New York metropolitan area.

Plane Carrying 69 In San Juan Crash
New York, April 11—(AP)—A Pan American Airways plane with 69 persons aboard crashed into the San Juan, Puerto Rico harbor today and sank.

Pan American said the plane, tourist flight TWY4, carried 55 adult passengers, six infants and a crew of five.

The line said it "ditched and sank" five miles northwest of the entrance to the harbor at 11:05 a. m.

There was no immediate information as to survivors.

The line said a coast guard FBY Amphibian rescue plane was on the water at the scene of the sinking, three other planes were hovering over the scene and coast guard boats were on their way.

The plane was in command of Capt. John C. Burns, the husband of Jane Froman, radio and movie star.

NEW RECORD FOR BREVITY AT TRUCE TALK

Munsan, Korea, April 11—(AP)—Truce negotiators set a new record for brevity today, disposing of their day's work in 90 seconds.

It was the sixth consecutive day like that, leading an Allied spokesman to suggest Communists may be waiting for instructions from higher up. The spokesman, Lt. Col. Howard S. Lewis, added:

"It's going to be a hot summer and a cold winter if they're going to try to outwit us."

Each day this week a negotiating subcommittee has gone through the formality of meeting saying a few words and adjourning. Six sessions have taken a total of 32 minutes.

Today's ultra-streamlined meeting followed the usual pattern. Chinese Maj. Gen. Hsieh Fang delivered a 60 word oration. Maj. Gen. William K. Harrison replied with two words and it was all over.

The substance of Hsieh's 60 words was that the Reds have the correct way to settle the troubles and if the U. N. command didn't have any new ideas let's recess until Saturday. Harrison agreed to the recess.

The Communist way to fix things is to name Soviet Russia as a "neutral nation" to help police a truce and approve reconstruction of Communist airfields.

The U. N. command opposes both. Staff officers working on the other armistice problems—how to (Turn to Page Twelve)

Columbus Boy Ill With Meningitis

Improvement was reported today in the condition of Rudolph Silvius, 11-year-old Columbus township lad who is seriously ill with meningococcal meningitis in Corry Memorial Hospital. Dr. J. G. Butters of Corry, attending physician, said today that definite improvement was shown last night after the boy had been in critical condition since his admission to the hospital on Tuesday. It was reported that he recognized his mother this morning and talked with her.

Rudolph, son of Mr. and Mrs. Rudolph Silvius, Jr., who live near the state line on the road leading to Clymer, N. Y., was taken suddenly ill while in his fifth grade classes at Columbus school, Monday afternoon. The family reported he had not been in contact outside the home other than at school. The other Silvius children, Edward, 13, Connie, 9, Donna, 8, Dwayne, 7, and William, 5, have shown no symptoms of the disease.

Dr. Butters said today the boy was admitted to the hospital in an unconscious condition and that while his condition shows improvement he is still very ill. He explained that meningococcal is a form of spinal meningitis involving the covering of both the brain and the spinal cord. The boy is not paralyzed.

Sam Gerard, county health officer, is investigating the case. The school at Columbus is closed for the Easter interim.

Pittsburgh, April 11—(AP)—Business in the Pittsburgh district fell off .07 per cent last week compared to the previous week according to the University of Pittsburgh. The business index last week stood at 192.1 per cent of the 1935-39 average, compared with 192.8 the week before.

Dream of New Life Is Dimmed by Death

New York, April 11—(AP)—Death dimmed the dream of a brave new life for a displaced Pole and his family as a Transatlantic plane neared Idlewild Airport yesterday.

With Edmund Matuszewski were his wife, Martha; their 16-month-old son, Joseph, and twin daughters, Veronica and Angelika, four months old.

Only minutes from a landing, the girls began to turn blue. Stewardess Madeline Mullin administered oxygen. The pilot radioed the airport for stand-by help.

Doctors gave more oxygen. They said the babies both had pneumonia.

Angelika survived by Veronica died.

Firemen Discuss Mutual Aid With Adjacent Districts

What is described today as one of the most enthusiastic meetings ever held by the Warren County Active Volunteer Firemen's Association took place in Youngville, Thursday night, when delegates came from Erie and Chautauque counties to talk over the plan of mutual aid and to consider short wave radio installations on trucks and in fire houses.

Ray Hughes, co-ordinator for Chautauque county, was accompanied by Chester Wilbur of Busti; George Blackstone, Donald Sales, and Charles Price, all of Lakewood; W. R. Wilson and Raymond Harmon of Westfield.

John Kennedy, D. Beatty and Owen Ray, all of Lawrence Park, C. C. Lyons of Kearsarge, and William Finch of Lake Shore, secretary of the Erie County Association, also were present.

The success of mutual runs and stand-bys came up for discussion, and the close cooperation between the three counties is believed to be an important step forward in better fire protection.

The men from Chautauque told of the valuable aid given by New York state in civil defense activities, especially in their county radio hook-up with a central station in Mayville, and demonstrated the effectiveness of this by talking, from their truck parked in Youngville, to the Mayville operators.

An important meeting of the Warren County Active Volunteer Firemen's Association is planned for early May in Sugar Grove, a date to be announced later, which will enable the Erie and Chautauque men to attend, at which time Civil Defense Director Floyd Clinger, the county commissioners and others will be asked to attend.

Youngville firemen showed movies of the 1951 convention parade and Erie county men showed films on fire-fighting.

The host company served refreshments to conclude the evening.

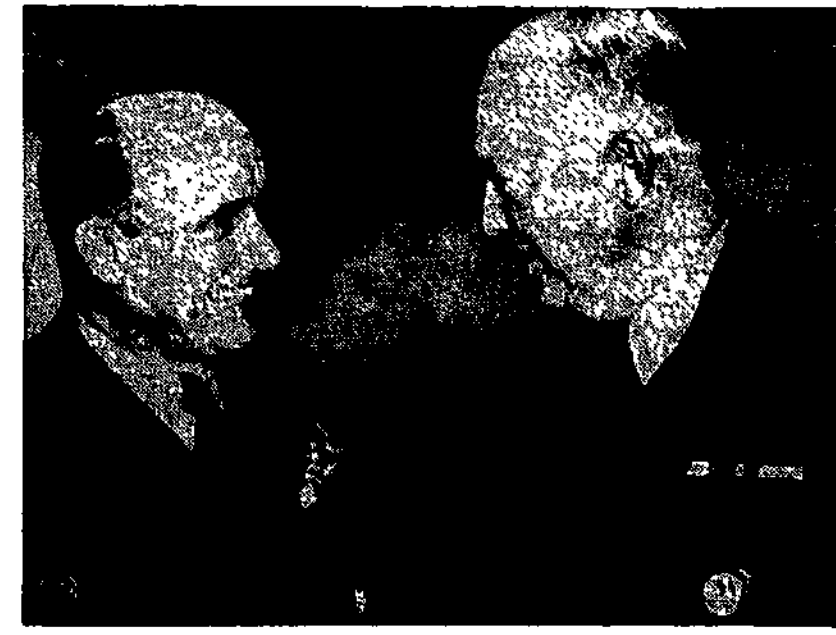

Bolivian Revolt Is In the Third Day
La Paz, Bolivia, April 11—(AP)—Loyal army troops and rebels still battled for possession of La Paz today, the third day of a revolution which erupted at dawn Wednesday.

(This dispatch, filed at 12:57 p. m. Bolivian time, was the first from La Paz since communications were blacked out Wednesday night.)

Rebel forces led by Brig. Gen. Antonio Seleme were in control of most of the city. Only small groups of loyal troops were fighting in the capital.

It was reported that leaders of the opposing forces were trying to negotiate a settlement so as to avert further loss of life.

A large but unstated number of persons have been killed.

Christian Pilgrims in Record Numbers Since Holy Land War Jam Into Jerusalem

By The Associated Press
Christians throughout the world today commemorated the most solemn event of Holy Week—Christ's death on the cross.

Christian pilgrims in the greatest numbers since the Holy Land war jammed Jerusalem. Jews and Arabs relaxed somewhat their barred wire barriers separating the old and new cities to allow the pilgrims to visit the shrines marking Christ's last days.

The pilgrims retraced His tortuous journey along the cobbled Via Dolorosa to Calvary. On Sunday the Roman Catholics will celebrate Easter at the Basilica of the Holy Sepulchre, a service marked by the joyous ringing of many bells at the Resurrection. Many Protestants will attend an outdoor sunrise service Easter morning at St. Andrew's churchyard.

Good Friday devotional services were held in all churches of western Europe—Catholic and Protestant alike.

In London a three-hour service began at noon in Westminster Abbey. In western Germany and elsewhere business places closed and government offices shut up for the weekend.

Thousands of pilgrims from many parts of the world thronged St. Peter's Basilica in Vatican City and Rome's more than 400 other churches where the Mass of the Presanctified Host was celebrated.

Fine spring weather gave London an almost deserted look, as thousands left for four-day Easter vacations in the countryside. Tens of thousands of Parisians also deserted that city, but their places were taken by tourists flocking from England, Holland, Belgium and Scandinavia.

THREE ARE DEAD IN PITTSBURGH CRASHES
Pittsburgh, April 11—(AP)—A truck crash and a two-car collision in the Pittsburgh district yesterday killed three persons and injured four others.

Richard S. Collins, 19, of Albion, N. Y., burned to death when his truck crashed into a creek bed. Firemen said intense flames, fed by the truck's cargo of camera film, kept them from reaching Collins.

GENERAL WILL BE PLACED ON INACTIVE LIST

BULLETIN
Supreme Headquarters, Allied Powers, Europe, April 11—(AP)—Gen. Eisenhower will hold a news conference here at 10 a. m. (4 a. m. EST) tomorrow, presumably to comment on his retirement as supreme commander. Officers said he had left this headquarters when news of the White House announcement reached there and "will not be available for comment tonight."

Washington, April 11—(AP)—The White House announced today the release of Gen. Eisenhower as supreme commander of Allied Powers in Europe effective June 1.

It made public an exchange of letters which disclosed that Eisenhower wrote Secretary of Defense Lovett on April 2 that "I consider that the specific purposes for which I was recalled to duty have been largely accomplished: x x x"

That same day, Eisenhower notified the chairman of the standing group of the North Atlantic Treaty Organization to the same effect.

Lovett, in a letter dated April 10, wrote Eisenhower he was taking appropriate action "to secure your release from assignment as supreme commander, Allied Powers, Europe, effective 1 June, and to have you placed on inactive status upon your return to the United States."

In his letter, Eisenhower made no reference to the fact that he has agreed to accept the Republic (Turn to Page Twelve)

O. P. S. Authorizes Raise in Prices Of Bread, Cake, Pies

Washington, April 11—(AP)—Bread, cake and pie prices are going up during the next 30 days.

The Office of Price Stabilization (OPS) yesterday announced new ceiling prices which will boost the price of a loaf of bread about one cent, more expensive cakes as much as five cents.

The new regulation covers bread, rolls, fresh-baked cookies, pastries, sweet-yeast-raised goods, doughnuts, crullers, pies and frozen bakery items.

It does not cover generally less perishable items such as packaged (Turn to Page Twelve)

Atomic Commission To Build New Plant
Washington, April 11—(AP)—The Atomic Energy Commission announced today it is planning construction of a new, billion dollar plant. It said its search for a suitable site is now concentrated in the Ohio valley.

This was the first official statement from the commission on the proposed plant, reports of which have been circulating in Kentucky, Ohio, and West Virginia.

AEC General Manager M. W. Boyer said in a statement the commission is surveying prospective locations for a site of 5,000 or 6,000 acres for a new gaseous diffusion plant "which is included in the AEC expansion program now being drafted for submission to congress." It would employ 4,000 to 5,000 operating workers.

Boyer stressed that the commission has not yet decided on a site.

Residents of Glade Township Consider Plans to Acquire Suitable Fire Truck

Fifty Glade township residents met at Irvinedale school, Thursday night, to continue contemplation of adequate fire protection for the township and decided the best procedure is to acquire the International truck offered them at cost by Clarence Mader and equip this with temporary fire-fighting apparatus.

The equipment committee, after visiting fire department at Derick City, Pleasant township, Russell and North Warren, recommended that an attempt be made to acquire a seven or eight hundred gallon used tank with skirts and panels, together with a 500-gallon capacity civilian defense pump for installation on the truck. Purchase of hose, a portable pump, ladders, boots, coats and other essentials would follow. Members of the equipment committee are Howard Whitmire,

Charles Knapp and Clarence Mader.

Sentiment was expressed in favor of securing an option on a piece of property as a future site for a fire house prior to actual purchase of a truck and George Walker, John Allen, Harris Johnson, Wilbert Knapp and Clair Rapp were named as a location committee.

Don Curtis, president of the Glade Township Volunteer Firemen, presided at the meeting and urged the men to attend the training course for firemen being conducted each Tuesday at 7:30 p. m. at Russell.

It was decided to change the regular meeting date from the second to the fourth Thursday so as to not conflict with the meetings of the Warren County Active Volunteer Firemen's Association, the next meeting to be held on Thursday, April 24th.

"AN EASTER MESSAGE"

The following Easter Message was written by Emlyn Jones, M. D., deputy secretary, Department of Welfare:

A great deal of ancient history, with spiritual significance is associated with rivers, seas, trees, and various types of vegetation.

We note the effervescence of nature in the spring, following the winter season, the joyful glee of the babbling brook, the freshness and sparkle of the mountain stream, the budding of the flowers, the trees, the mosses, as they give evidence of renewed vigor, beauty and fragrance.

It is well to associate these gifts of sustenance, comfort, exhilaration and pleasures, with something higher than ourselves, and pay tribute in prayer and worship to the Creator of the Universe, as the fruits and grains come to fruition, aided by the rain, the sunshine, and even the winds.

The Nile River, historic in character, traverses and overflows its waters of mixed colors, aids materially in the productivity of the soil in the land of Egypt, a country known from early civilization to our present day.

The sycamore tree, into which Zacchaeus climbed that spring day at Jericho, so that he might see the Master, has become one of the greatest pulpits in history and illustrates the power of kindness, a virtue, so badly needed in these days of distress, anxiety and frustration.

We can design our lives, even if we blunder much and fumble. Let us not forget that we carry with us powers not used, possibilities never developed, strength hidden from others and ourselves. We know that the roots of a tree working out of sight below the ground gathers and sends up to the branches the strength that makes the fruit of the tree.

It is important that we live well, than that we live long. Longevity is not an asset, either to the individual who boasts it or to the world, unless the years be profitably, or beautifully, or nobly spent.

"Joan of Arc died when yet a child, but she saved France; Abraham Lincoln expired in the prime of his maturity, but he saved America; the Master lived only thirty-three years, but he saved the World."

TRAFFIC CASUALTIES

Each year at about this time, we as a nation of drivers and pedestrians find out from a Hartford insurance company how we fared in the previous year.

The Travelers annual book of street and highway accident data has just been published and we learn with dismay that almost two million of us were casualties in 1951. Specifically, 37,100 persons were killed and 1,962,000 injured in auto accidents last year.

The enormity of this toll is difficult to digest. Out of all context, a total of two million broken bodies from any cause is beyond description. For a sharper focus on two million deaths and injuries, think of them in terms of one or two at a time in accidents on roads in every corner of the country.

More to the point, think of them in terms of your own circumstances. Think of them when you drive or walk during the Easter weekend!

The death of Elmer L. Pilling, first game protector in Warren county, one of the best informed men in woodlore in the section, causes much sorrow among his host of friends and associates, especially in Scout circles where he had been active over a period of years in aiding boys to achieve awards in nature and wildlife. His friendly and congenial association and generous help in this activity will be sadly missed.

Mrs. Mary Buerkle, one of Warren's grand old women residents, celebrating her 98th birthday anniversary at the Rouse Hospital today, is busy among other things looking over a collection of greeting cards and letters. We are happy for the opportunity to join in felicitating this beloved citizen.

News from the state and federal forestry offices emphasizes the importance of using extreme caution when in the woods of the area to prevent starting damaging fires.

He's Up! He's Down! He's Up!

Here And There

Fifty years ago when it fell on March 30, 1902, according to The Evening Times "Easter Sunday was not all that it should have been from a climatic standpoint, but new spring bonnets and spung clothes of all descriptions were worn as confidently as though the sun had been shining with a little more ardor than was the case. The latter part of the day was much like Easter of the year previous, when a cold and depressing rain put a stop to all out of doors activities." The article continues:

"The churches were crowded with worshippers, many attending services on this day that seldom go between times. The great audiences were bright with color, and the decorations made the interiors bright and cheerful. Easter lilies, of course, predominated and these interspersed with just enough variety to make the floral display all that it should have been.

"At the various greenhouses the sale of flowers exceeded that of previous years and hundreds of homes were brightened and made happier by the sweet-scented harbingers of spring.

"The various musical programs published in the Evening Times Saturday evening were carried out, and in each instance added much to the beauty and dignity of the service.

"Easter in itself is a great sermon and there is little to add to advance upon the day and its meaning that has not already been brought forward. The sermons in nearly every church were devoted to the great theme of the day, the Resurrection of the Christ. The thoughts advanced by the several pastors were beautifully and eloquently couched, and in conjunction with the musical portion of the services, made the day's observance especially appropriate and enjoyable.

WSB Regional Boards Channel Only Big Cases to Washington

BY PETER EDSON
NEA Washington Correspondent

WASHINGTON—(NEA)—The Wage Stabilization Board and its 14 regional boards scattered around the country have solved over 31,000 dispute cases in the year and four months they have been in existence. Most of these cases have been handled without more than a ripple of excitement in local areas.

It's the big cases it isn't able to solve readily, like the steel wage case, that cause WSB to be criticized. Also, there's the fact that the boards have a backlog of some 15,000 cases on file that they haven't been able to get to for lack of time.

Most WSB cases are handled by regional boards and never get to Washington. Only the big ones, involving some national principle, are taken on appeal to the capital. So far, President Truman has referred 12 cases to WSB headquarters. Labor and management have voluntarily submitted eight more cases for settlement.

Soviet Russia's so-called world conference on business, in Moscow, is now sized up as a propaganda protest against export control regulations of the non-Communist nations. This can be taken as a great compliment from the Communist countries on the effectiveness of the export control program.

It took over six months after the outbreak of the Korean war to get the non-Communist countries to go along on this program. Some of them, like Great Britain, really need such Russian exports as lumber and coarse grains. They must give raw materials like rubber and wool in exchange. But quantities are limited to pre-war civilian consumption. Strategic materials necessary for the Russian rearmament effort are strictly banned. That's why the Communists are screaming now for free trade. It's another cold-war battle they're losing.

AMERICAN tourists in Mexico have repeatedly brought back reports that the U. S. Embassy in Mexico City has 3000 employees and fills a skyscraper.

State Department, after a check, says the total number of U. S. employees in all of Mexico, and not just the capital, is 1310—of whom 932 are Americans and 378 are Mexicans.

Of this number, 462 Americans and 13 Mexicans are employed by the U. S. "Aftosa" mission, which has been fighting hoot-and-mouth disease. If this mission can be liquidated by Sept. 15, as now planned, U. S. employees in Mexico will be reduced to 835—470 Americans and 365 Mexicans.

The Foreign Service has 145 Americans in Mexico City, plus nine Marine guards and 73 Mexicans. U. S. Information Service has 22 Americans and 75 Mexicans. This staff has recently been moved into 12 floors of a 17-story office building. Visa section occupies the first floor. Offices including library and snack bar on one floor, occupy stories six to 16.

Most of the other U. S. employees are scattered all over Mexico. In 19 consulates are 113 Americans and 97 Mexicans. They take care of the 400,000 American tourists who flock to Mexico every year, and some 30,000 to 40,000 business men.

Department of Agriculture has 68 American specialists and 13 Mexican employees. Department of Labor has 44 Americans recruiting farm labor. Defense attaches number 38, with 75 Mexican employees. Ten other U. S. agencies have less than 10 employees apiece.

Whoever wins the Democratic presidential nomination, it's apt to be a family affair. Vice President Alben W. Barkley, it turns out, is related to both Gov. Adlai Stevenson of Illinois and Sen. Richard B. Russell of Georgia. Governor Stevenson and Senator Russell are no relation to each other, however.

The V. P. is a distant cousin to Senator Russell on his mother's side. He is related to Governor Stevenson through his father, who was a cousin of Stevenson's father. Stevenson's mother and one of Barkley's aunts used to meet down in Paducah to talk over the family tree. And the two politicians have talked family affairs in their frequent meetings.

Daily Lenten Sermonette

THE REV. FRED T. MILLER, Calvary Baptist Church

"There they crucified Him." Luke 23:33. "For to this end Christ both died and rose and lived again that He might be Lord both of the dead and of the living." Romans 14:9.

Calvary is at once tragedy and triumph. . . . tragedy in the involvement of human guilt; triumph in the accomplishment of Divine plan and purpose. Nothing is plainer in the statements of Scripture than that Christ died according to the determinate counsel and foreknowledge of God but "ye by wicked hands have crucified and slain."

The end to which Christ died is that He might be Lord. The Bible states that Christ died to establish a dominion in the realms of life and death. Though dying, the victim of man's hatred and cruelty, He yet revealed to the dying thief His complete supremacy in the realm of death—"Today shalt thou be with Me in Paradise." His supremacy in the realm of life is seen in the lives of those who went forth to serve Him; who willingly, of their own volition, acknowledged His Lordship.

Citizenship in any land precludes allegiance to any foreign power or potentate. "Ye cannot serve two masters." The Lordship of Christ involves the surrender of the government of your life to His control. Either Christ is Lord of all or He is not Lord at all. Calvary involves no less than this—unconditional surrender of our lives to the Christ Who died that He might be Lord.

Today the eyes of the world have been turned back again to that scene at the place called Calvary. We instinctively feel our world involved back there—we feel our personal involvement back there. The Christ of the Cross is not asking our sympathy; He asks not our memorial wreaths of special religious exercises; He asks the surrender of our wills, our emotions, our lives.

"Were the whole realm of nature mine
That were an offering far too small
Love so amazing, so divine
Demands my soul, my life, my all."

In the afternoon, displays and studies will prove of interest to those concerned with the Christian education of children. Topics such as Worship Centers, Creative Activities, Audio-visual Aids, Sunday School Literature, etc., will fortify the teaching background of those who attend.

The special speaker for the institute will be Miss Arlene Beason, editorial assistant of Sunday School Publications, Dayton, O., who is associated with the Otterbein Press, official publishing house of the Evangelical United Brethren denomination.

Starbrick Scouts Give Entertaining Minstrel Revue

"Starbrick Darkies," a minstrel show presented for the PTA by Girl Scout Troop 8, under the leadership of Mrs. L. L. Shepherd and Mrs. Paul Nordine, proved a most enjoyable Tuesday evening attraction.

Hazel Campbell was announcer for the program, which opened with "Swanee River" played by Carol Hamblin as an accordion solo; "Ole Black Joe"; and "Short'n' Bread," sung by Joyce Black, Susan Higginbotham and Coral Williams.

Next came a bit of baton twirling and a military tap by Leann Albough; and a trio composed of Carol Hamblin, Nancy Sidon and Audre Williams harmonizing "Tell Me Why."

"In a Hammock," a mirthful novelty number, was enacted by Kay Dunham, Edith Gibson and Dianna Swanson. Then, Marilee Shepherd did a tap routine to "Darktown Strutters' Ball."

Wishes Are Satisfied If You Are Willing to Strive for Them

NOBODY ever got anything in the world, simply by wishing for it. Yet many a woman wastes her time wishing instead of doing. If you wish you were a better cook, quit wishing, buy a good cook-book, ask your friends for favorite recipes, and get busy experimenting. If you wish you could quit smoking, either give up the wishing and really enjoy the smoking. Or quit.

OTHERS WILL BE AGREEABLE IF YOU ARE

If you wish you had a more agreeable, understanding in-laws, quit wishing and try to be a more agreeable, understanding in-law yourself. You'll be surprised at how much you can change another person's attitude toward you simply by changing your attitude toward him.

If you wish your life were more interesting and exciting, quit wishing and admit that it never will be unless you put some interest and excitement into it. No one is going to do that for you.

If you wish you had what Mrs. Jones has, stop wishing for what she has and be thankful for whatever it is you have that she doesn't. Whether it is youth, health, fine children, a devoted husband, some ability or the capacity for enjoyment of simple things.

Wishing is a waste of time and it can amount to the wasting of a life, for the person who doesn't follow up wishing with doing.

Outer Raiment May
Be Necessary For
The Easter Parade

That new Easter ensemble which she has been accumulating for several weeks and his new blue suit, which the ads claim is a necessity this year, may be covered by outer raiment in Sunday's Easter parade, if the weatherman's predictions come true.

Advance weather information indicates that the mercury will dive to as low as 25 tonight, that Saturday will have cloudy and continued cool weather, with no upturn of the mercury promised for Sunday. Approach of a cold air mass is expected to give Warren a chilly week-end, unless a decided wind change occurs. Snow flurries are not beyond the realm of possibility.

Maundy Thursday provided early spring's finest weather, but it included a divergence in temperature which could have set a record for April 10. The thermometer went down 41 degrees from 3 p. m. yesterday until midnight. It registered 74 at 1, 2 and 3 p. m., dived to 33 at midnight. Pittsburgh reported a 78 yesterday, 3 degrees under its all-time record for that date.

Candidate to GOP
Convention Makes
Visit to the Area

William C. "Bill" Hearst, above editor of the Clarion Republican, candidate for delegate to the Republican National convention, pledged to support the most popular candidate, was calling on friends in Warren Thursday afternoon. He is the only pledged candidate on the ballot, his name appearing fourth on the list.

The Clarion editor stated that General Dwight Eisenhower is certain to be the popular choice in this state, since there are only two names on the ballot, Eisenhower and Stassen. The latter offered to give Eisenhower half of his delegates in one election, which makes the General sure of the nod in Pennsylvania.

Hearst was one of the first editors in the state to declare himself for Eisenhower, having taken an editorial stand as far back as last

fall. He has since supported "Dew" vigorously in his editorials, and, with the endorsement of leading Republicans in Clarion county, has swung most of the county into the Eisenhower column.

For more than a decade Hearst has aggressively supported the Republican party in Clarion county, and has been instrumental in maintaining a ten percent majority for his party through the latter half of the New Deal regime. He wants to be a delegate to the convention because, as he puts it, "After so many years of voting in vain, I want to help choose, and help elect, a President."

A Poem for Easter

The Cross

By Dora Byron

His cross was but
A common thing
Of cypress wood.
Upon a tired hill,
Desolate, it stood;
And yet its arms have reached from sea to sea.
Arms so strong that they have set men free;
And love so bright burning long ago
Changed the cross to gold with its glow.

My cross sometimes
Is a weary thing
Too hard to bear,
A tiny ugly thing;
It floods my life
In hopeless care;
But with his love
I, too, will make
That cross of gold,
And pour the dark
Tear-stained wood
Into His mould.
My cross can never
Stretch its arms
From sea to sea,
But it can raise
My heart to God,
And set me free.

THE WORKS OF CHRIST

A WOMAN TOUCHES THE HEM OF HIS GARMENT
And, behold, a woman, which was diseased with an issue of blood twelve years, came behind him, and touched the hem of his garment: For she said within herself, If I but touch his garment, I shall be whole.
But Jesus turned him about, and when he saw her, he said, Daughter, be of good comfort; thy faith hath made thee whole. And the woman was made whole from that hour.

St. Matthew 9:20-22.

A BOY AT CALVARY

When three hours had passed, the dark earth shook. Now, thought Sakron, if Jesus is the Messiah He will escape. Instead, a last trembling sigh escaped Jesus as He cried, "Father, into Thy hands I commend My spirit."

Impassible loneliness overwhelmed Sakron. Grief glistening in his eyes, he trudged back to Macode. Though his mother greeted him with kisses, there remained within him an aching emptiness.

Then, on the third day, words wringed across the land—Jesus had risen. When Sakron heard it in Macode, his loneliness was suddenly lifted, and somehow he knew he would not feel it again. It was a day of exultation.

ROAD TO CALVARY

AP Newsfeatures

The long, sad procession to Calvary started. The events of that journey with Christ carrying His cross among His awed followers, the mocking mob, and the stern Roman soldiers have become part of the Christian story.

placed one on each side of Him. After His death, He was taken down from the cross and His body was placed in a tomb.

But Christ had come to earth as a symbol and a promise. Now was the time for the promise to be fulfilled. When His people came to the tomb they found it empty. They turned away, awed and amazed and later found Christ still among the living. This was the Resurrection.

a thought for easter

The message of Easter is far deeper and more vital than can be symbolized by rabbits, or lilies, or even the latest in Spring attire

Just as Spring brings an awakening of much in nature that seemed dead during the Winter, so Easter brings to our souls the glorious assurance of divine victory over death.

Attend church on Easter Sunday.

Thousands Leave City for Holidays

New York, April 11.—Extra trains, planes, and buses today carried a heavy vanguard of travelers bent on a three-day Easter weekend.

The Pennsylvania Railroad scheduled 70 extra trains between New York and Washington for the holiday period.

Travelers to Washington included a number of school classes out to see the government buildings, monuments and cherry blossoms.

The New York Central arranged extra trains from Syracuse and Buffalo to New York for student groups, who were proceeding to Washington via the Pennsylvania after a stopover here.

Travel agency officials said an influx of visitors to New York included a number of Canadians, happy at the strong position of the Canadian dollar and the recent news of forthcoming tax cuts in Canada.

The spokesman is O. A. Knight of Denver, president of the CIO Oil Workers' International Union. Knight said he has authority to speak for all of the 35 unions involved.

mean nomination for president if it should be tendered him.

The letter simply said: "I request that you initiate appropriate action to secure my release from assignment as Supreme Commander, Allied Powers Europe, by approximately June 1st, and that I be placed on inactive status upon my return to the United States. A relief date fixed this far in advance should provide ample time for the appointment of a successor and for any preparation and counsel that he may desire from me."

Presidential Secretary Joseph Short said Eisenhower wrote President Truman a personal letter, informing him he was taking this step through channels—that is through Lovett—and that the president replied with a letter to Eisenhower, written in long hand.

"Both letters were personal and very cordial and will not be made public," Short said.

Short would not indicate when a successor to Gen. Eisenhower will be named by the president or identify the successor the president has in mind. He simply said the announcement will not be made today.

Asked whether Eisenhower will return to this country before June, Short said he did not know when the general will return.

crackers, biscuits, pretzels or cookies. Those prices remain unchanged.

The ceilings are based on how much bakers have raised prices during the last two years, and will vary across the country. Bakers may charge 16 per cent more than the highest 1949 prices. Those who have been selling for more than this will have to cut prices.

Bakers may figure out the new prices and put them into effect immediately if they desire, but they must compute new ceilings by May 10.

Price Stabilizer Ellis Arnall said the increases are necessary to enable members of the five-billion-dollar-a-year bakery industry to make a fair profit. Most bakeries were allowed a temporary emergency increase of 11 per cent last November.

However, in Illinois pickets were ordered up at Chicago exchanges today. Picket lines also were extended in northern California and in Oklahoma. Southwestern Bell employees joined Western Electric pickets in eight cities. Union heads reported this meant the communications tieup would spread in the state today.

From the service standpoint, the company said it had been able to maintain normal operation in most areas except those without dial service.

GOING FISHING (L. D. J.)

In less than a week if the weather is fine I'm going fishing. With tackle and line I'll use great precaution. So I'll not be seen. By the wary old trout Who inhabit the stream.

Fishing for trout Is like hunting for deer. They have real sharp eyes And they also can hear. So take it real easy And watch how you go. You don't have to hurry It's best to go slow.

When out in the morning You have the whole day Enjoy what you're doing It surely will pay. The air is so cool By the old winding stream The lights in the rifles Do sparkle and gl'am.

The splash of a big one His movements I've seen The line straightens out And a fight has begun. The thrill of that moment The jerk and the tug Is proof you are bit by The Old Fishing Bug.

The morning passed swiftly It's now time to eat. You sit down to rest Take the load off your feet You munch on a sandwich And hum a gay tune You look at your watch It's a quarter past noon.

The sun is up high. Things seem very still Except for the jaybird That calls from the hill. My day is soon ended For I have my lot This is my fish story Believe it or not.

The Changing Landscape

RALPH G. SCHERT,
Soil Conservation Service,
Warren

Hello folks, at last we are starting to see a few days that make us think Spring is really just about here. These are the days to get trees and hedges planted and out of the way so that when the ground dries out we will be ready to do the plowing and planting.

This week approximately 50,000 shrubs have been picked up from 2 distribution points, by Warren County Soil Conservation District Cooperators. At least 40,000 of these plants were multiflora rose that is being used for living fence. The remainder are shrubs that are being planted to provide food and cover that is favorable to wildlife development. Some are being planted as wildlife areas while others are border plantings.

A word of warning should be injected here in regards to multiflora rose. The spreading of this plant has been discussed pro and con with each person sticking to his own view. I do not believe that any statement has ever been made, from here, that it would not spread. The statement that has been made is that "if the land is being properly used it will not spread." This means that if multiflora rose is planted for pasture fence with cropland adjoining, as long as the cropland is worked and the pasture clipped, as a well managed pasture will be, the rose will not spread. This management of surrounding areas does not mean additional work but only carrying on normal operations that are being done on a well managed productive farm.

There are still a few shrubs available to cooperators who may wish to do additional planting. They will be disposed of on a first come first served basis.

The SCS helped Warren Fehman complete the conservation plan for his farm along Follett Run Road. Warren is improving his pastures by adding an area of birdfoot trefoil on the high ground and ladino and orchard grass on the wet areas. He is planning on building 2 diversions in a lower field that will be managed as perennial hay. From this field he will get most of his hay and grass silage.

With the season of rush work coming on fast it is requested that anyone wishing to establish strips or build diversions, terraces, or open drains contact the Soil Conservation Service technician as soon as possible. This can be done by calling Warren 3404 between 9:00 and 8:30 a. m. Monday thru Friday.

See you all next week.

SHEFFIELD

Two Threatening Fires Keep Department Busy

Sheffield Fire Department experienced one of those to-be-dreaded occurrences at 11:25 a. m. Thursday when two calls for aid were received simultaneously, one from the Crary farm and the other from the High street home of John Budila.

At the Crary farm a grass fire had raged out of control of a man who was smoking out a wood-chuck, and spread rapidly toward the timber. The truck's crew manned an Indian pump and soon had the fire under control.

At the Budila home, fire spread from burning rubbish and because of a strong wind it endangered property on High street and Keystone avenue. Racing out of control it could have reached property over the hill as far as Mill street where several properties would have been in the path. Chief Ritchie, realizing this, dispatched one truck to that point to stand by.

The Department with 23 men, was assisted by a large crew from the Forestry Dept. with a jeep, and all available equipment, as well as a crew of eight men from the McMillen Lumber Company. Approximately fifteen acres were burned over, with no property damage. The men were at the scene one hour and 25 minutes.

All Top Contenders Have Key Men Who Can Swing Verdict

New York, April 11—(AP)—Each of the six top ranking contenders for the major league pennants has at least one key player who can settle the flag races.

Last year the dopsters observed that Bobby Thomson and Monte Irvin would have to have big years for the New York Giants to win the flag. They were correct. Both had great years and the Giants did win.

Heading this year's key men are the same Thomson and Bob Elliott of the Giants, Clem Labine of the Brooklyn Dodgers, Bob Lemon and Luke Easter of the Cleveland Indians, Yogi Berra of the New York Yankees, Curt Simmons of the Philadelphia Phillies and Eddie Stanky of the St. Louis Cardinals.

Thomson, who last year struck perhaps the most significant home run in baseball history, carries the heaviest load. Bob must assume the lead role now that Monte Irvin is sidelined with a broken ankle. That role proved too much of a burden for Thomson in 1949 and 1950 when the Giants unloaded their big guns—Johnny Mize and Walker Cooper.

Elliott, acquired from the Boston Braves earlier this week, must fill Irvin's shoes until Monte returns to action. The 36-year-old slugger is counted on to drive in the runs and hit the long ball that made Irvin the most valuable Giant in 1951.

Lemon, who had a so-so 17-14 record last year after three straight 26-game winning seasons, must have a big year. He is expected to take up the slack should Bob Feller, Early Wynn or Mike Garcia fail to repeat their 20-game seasons of '51.

Easter figures to be the big gun in the Indians' attack.

Berra, voted the American League's most valuable player last year, takes Joe DiMaggio's place as the "big guy" of the Yankees. That means he probably will also take over DiMaggio's cleanup spot in the lineup. Yogi has no great desire for that role.

Simmons, back from the Army, is expected to team up with Robin Roberts as the top pitching pair in the National League. Philadelphia Manager Eddie Sawyer is banking all his pennant hopes on the young southpaw who sparked the Phils to their first flag in 35 years with 17 victories in 1950. With Simmons in the Army, the Phils dropped to fifth last year.

Stanky, making his bow as a big league manager, is the key to the entire Cardinal infield. If Eddie can play 100 games at second base, it would enable him to use Red Schoendienst, one of the most versatile players in the game, at either, first, short or the outfield.

More Deer and Bear Are Killed in 1951 Than in 1950; Records Show 25 Hunters Were Killed

Harrisburg, April 11—(AP)—Twenty-five persons met death in hunting accidents last year—nine more than in 1950.

Official figures released yesterday by the State Game Commission listed another 386 persons as suffering non-fatal wounds in hunting mishaps. This was a drop of 63 from the previous year.

Fourteen of those killed in the field last year were fatally injured during small game season with the remaining 11 meeting death in the big game season.

The report said that nine of those killed died from self-inflicted wounds.

In addition to the human casualty report, the commission also released the first official totals on the game kill last year. It showed a bag of 34,582 antlered deer against 23,302 in 1950.

The antlerless deer killed amounted to 37,952, compared with 31,515 the previous year.

Last year's kill for other game (1950 kill in parentheses):
Bears, 429 (354); rabbits, 1,258,246 (1,553,968); hares (snowshoes), 1,506 (1,445); Hungarian partridges, 69 (15); squirrels, 541,158 (546,574); raccoons, 99,413 (74,649); wild turkeys, 8,962 (5,278).

Ruffed grouse, 45,250 (36,403); ringneck pheasant, 385,598 (353,279); quail, 7,363 (4,461); woodcocks, 14,409 (17,500); rails, gallinules and coots, 6,755 (4,925); wild waterfowl, 56,529 (52,519); woodchucks, 258,314 (251,648); doves, 8,215 (10,533).

GIANTS AGAIN A CONTENDER WITH ELLIOTT

By GAYLE TALBOT
New York, April 11—(AP)—Days of soul searching and a certain amount of prejudices have gone into the following prediction on how they will finish in the National League race. The process is much harder than plain experting.

1—New York; 2—Brooklyn; 3—Philadelphia; 4—St. Louis; 5—Boston; 6—Cincinnati; 7—Chicago; 8—Pittsburgh.

Only two days ago we had given up on the Giants, just as they had given up on themselves after Monte Irvin broke his ankle. But then they made the deal for Bob Elliott, who should unload about 25 home runs into the short left field stands at the Polo Grounds, and now we feel they might just make it.

Carl Hubbel said down in Phoenix: "Give me the pitching and a tight defense and you can have the hitting. I will win the pennants." That, coming from the old master, casts the deciding vote.

The Giants still have much the finest pitching staff in their league and they will have a crack inner defense once little Davey Williams, the baby of the club, settles down to his new responsibilities. Their outer defense will win no prizes after Willie Mays goes into the service next month, but it looks like you can't have everything.

Word from the Dodgers is that they no longer fear the Giants since Irvin's injury and Willie's call to the colors. The feeling here is that Charles Dressen's team suffered as great a loss in the drafting of large Don Newcombe, and that it will discover same within a short time. Besides, several key Brooklynans, including Reese, Robinson and Furillo, are over that 30 mark now and will begin to feel the heat of August.

Philadelphia is the danger. Curt Simmons, a potentially great pitcher, rejoins the team shortly, and Connie Ryan has pulled the infield together. It is a good looking outfit, but several of its stars still are burning because they were not permitted to take their wives to training camp. Little things which do not show in the record books often decide pennants.

Some are picking the Cardinals to be right up there at the finish. This seems to be at least partly out of admiration for their new manager, Eddie Stanky. Eddie will have them scrapping, all right, but he never could pitch a lick, and you've got to have pitching.

Boston, though loaded with

rookies, should have enough pitching to top a somewhat musclebound second division. Earl Torgeson, the Braves' bespectacled first-baseman, was on the block all winter with no takers, by the way.

Cincinnati, slow asfoot and with little hitting, wins the sixth slot more or less by default, and then comes probably the trickiest bit of selecting yet. Both the Cubs and the Pirates are pretty bad. We are inclined to take a flyer on the Cubs because they at least stood still and only added a year to their average age of last spring. The Pirates are operating with bottle babies, strictly, and it's going to be a long summer for Billy Meyer, their governor.

Tarentum Bowler Leads Singles At National Tourney

Milwaukee, April 11—(AP)—No one could budge the top 10 leaders in any division in the American Bowling Congress tournament yesterday.

The best showing in the slow day of rolling was an 1,806 all events total put together by Don Wroten of Tacoma, Wash. He had 565 in team, 605 in doubles and 636 in singles.

Other top counts were the 1,210 doubles score of William Relake and Bernie Soch of Sheboygan, Wis., and the 686 in the singles by Joseph Karadeama, Tarentum, Pa.

There were no regular teams in action last night. Lower average booster squads had the alleys and will keep them until Monday. No doubles or singles action is slated until that day and regular teams won't be back at work until Monday night.

Low-Cost Home Has Disappearing Bedrooms.

QUICK CHANGE—In the upper photo it's a living room. At night the wall sections swing out on casters to divide living room into two bedrooms.

AP Newsfeatures

FT. OGLETHORPE, Ga.—Contractor Dick A. Hunt says he expects soon to mass-produce modern two-bedroom homes for as little as \$4,000 by using a patented disappearing wall.

By day the wall, divided into two sections, forms one side of a 25x11½-foot living room. Behind the sections are 2-foot-deep closets containing chests of drawers and vanities. Disappearing beds fold into the closet side of the wall sections.

At night the wall segments swing out on ball-bearing casters to divide the living room into two 13½x12-foot bedrooms. Hunt says the house is constructed in such a manner that no heavy items of living room furniture need be moved in dividing the room.

Small panels in the mobile wall sections permit access to the concealed chests of drawers during the day. The house has a conventional kitchen, dinette and bath.

Issue Regulations On Seed Potatoes Sold by Retailers

The Office of Price Stabilization today specifically prohibited sale of white flesh seed potatoes of any kind to, or in, retail food stores subject to CPR 15 and 16 at prices higher than ceiling prices for table stock potatoes.

OPS said information has reached the agency which indicates that the original exemption from price control of certified seed potatoes has been abused. Mar

tail stores which have not previously handled seed potatoes in any significant quantity are now reported to be selling large quantities of them.

"It is apparent that these potatoes have been sold for and consumed as ordinary table stock potatoes," OPS said.

"This abuse has been so serious and so widespread that immediate action is necessary to protect consumers against unwarranted higher prices and to guard against the possibility that supplies of seed potatoes will be depleted to levels inadequate for 1952 plantings."

Accordingly, Amendment 6 to CPR 113 provides that the ceiling prices of seed potatoes sold to retail stores shall be the same as the ceiling prices for table stock potatoes, and also extends the exemption from price control of certified seed potatoes to cover sales of uncertified seed potatoes to growers.

In order to prevent abuse, however, this exemption applies only in case of sales to growers located in the same state where the uncertified seed potatoes have been produced.

The amendments to CPR 15 and 16 require the application of table stock price markups to sales of seed potatoes by retailers.

If sales of these uncertified seed potatoes are made to a person other than a grower they immediately come under the coverage of CPR 113.
